III Reading Comprehension: 2pt 閱讀測驗 (每題 2 分)

A. Read the following article and answer the questions.

Most people have heard the saying "A cat has nine lives." This saying refers to the fact that some cats can survive death-defying experiences that people or other animals can't. There's no better example of this than Ziggy, a pure white cat with one blue and one green eye. The story starts in Israel, when somehow Ziggy became trapped in a container aboard a cargo ship. The ship's destination was England, more than 3,200 kilometers away. After a voyage of 17 days, workers opened the container, and Ziggy jumped out, unharmed. How he survived without food or water and with little or no fresh air is a mystery. Local animal charity workers in England are now taking good care of the formerly imprisoned cat. Perhaps the old saying really is true. With only eight more lives to spare, Ziggy had better be a bit more careful.

- 41. Which of the following descriptions about Ziggy is NOT true?
 - (a) It is a white cat in Israel. (b) It has one green eye and one blue eye. (c) It took 17 days to travel to England in a cargo ship. (d) It is now taken care of at a zoo in England.
- 42. What does the word "he" in line 7 refer to?
 - (a) An old saying. (b) An Israeli cat. (c) An English cargo ship. (d) An old mystery.
- 43. Where did Ziggy stay when he traveled to England?
 - (a) In a container. (b) In a cage. (c) In a warehouse. (d) In a kitchen.
- B. Read the following CV and answer the questions
